

Nightingale Highlights

JANUARY 2023

Welcome Pantone's 2023 Color of the Year: **MAGENTA**

Viva Magenta is Pantone's color of the year which descends from the red family to express a new signal of strength. This bold and brave color promotes a joyous and optimistic celebration, that inspires you take ownership and write a new narrative.

Viva Magenta encompasses the passion for living and is an embolden and powerful color. This "animated red hue encourages experimentation and self-expression without restraint, an electrifying, and a boundless shade that is manifesting as a stand-out statement."

The Color of the Year 2023 acknowledges our gravitational pull towards natural colors as "movements swell around climate change, sustainability, and land protection." Viva Magenta's color origin is derived from the cochineal beetle. This insect produces carmine dye, one of the most precious, strongest, and brightest of the natural dye family. This color represents the ever-present strength that can always be found in nature.

Pantone's prediction of color trends impacts designers across all industries such as furniture, textile, fashion, accessory, and technology. Each year designers are influenced and challenged by Pantone's color of the year to innovatively integrate these colors/themes into the marketplace.

Magenta office chairs and lounge seating products can bring a sense of confidence and inspiration to your office space. Nightingale offers a variety of high-quality textiles, vinyls and leathers which come in a wide range of colors and grades. If you desire a quality seating product that reflects the color of the year, Nightingale has many shades of red and pink upholstery options to choose from.

ABLEX™

This translucent weave pattern offers tremendous tensile strength; resulting in superior lumbar support and side-to-side torso flex movement.

The monofilament rubberized coating on the polyester mesh enables its "bounce back" memory. Air flows freely through this mesh to offer added comfort in any environment. Nightingale attaches **ABLEX™** mesh to the frame to provide the chair with a pre-set tension.

ABLEX™ responds to the weight and shape of each user to deliver the exact amount of tension required to provide generous lumbar support while allowing for dynamic movement.

The Importance of Ergonomic Seating in Training Environments

Did you know that the more stagnant a training environment is the less engaged and receptive your audience will be? Sitting in a rigid immobile chair results in poor blood circulation and muscle fatigue which negatively impacts concentration and memory. Couple that with the distractions of an uncomfortable chair and it is apparent that proper ergonomic seating is necessary for successful training and meeting spaces.

Nightingale's **NXO** is a versatile stacking and nesting chair that effortlessly combines comfort with a pronounced engaging design. Its supportive dual hexagonal torsion bar system with preset tension creates the chair's oscillating back which allows for dynamic movement that supports the natural curve of your spine. This design delivers exceptional ergonomic support and comfort.

The **NXO** also features enhanced seating comfort with our standard Enersorb™ foam in the seat, dispersing weight and pressure points, vertically and horizontally.

The **NXO** is lightweight, easy to move and its smooth carpet casters allow users to be active and move freely. This feature will keep users focused and involved throughout training sessions. Its folding seat allows the chair to infinitely nest horizontally and stack vertically up to 3 chairs high.

The **NXO** has the following optional features: mirror chrome legs, hard surface casters, floor glides, fold-away tablet arm for the right- or left-hand side and upholstered or mesh back. With such customizable options and space smart design, the **NXO** is a unique stacking chair that is sure to enhance your corporate training space.
